Jetcol® HTR4000 ■ SPECIFICATION

JETCOL® HTR 4000

- High drying speed
- Suitable for hard substrates
- Stays flat under high ink volumes

GSM	140
Ink coverage	● ● ● ●
Transfer yield	▲ ▲ ▲
Dry speed	✻ ✻ ✻ ✻

GENERAL

- The outside of the roll is the coated side / printing side.
- Suitable for industrial and plotter printers.

RECOMMENDED PRINT ROOM SETTINGS

- Ideal printing room temperature is 23°C and 40-60% relative humidity.
- For good dimensional stability, flatness of paper and faster ink drying, maintain ideal printing room climatic conditions.

RECOMMENDED TRANSFER SETTINGS

Temperature: 195 – 205°C
Time: 25 - 40 seconds

Ideal settings might vary depending on the process, print environment and textiles.

AVAILABILITY

TYPE	WIDTH		LENGTH		DIAMETER	
	MM	INCH	M	FT	MM	INCH
plotter	1115	43,8	90	295	165	6,5
plotter	1320	52	90	295	165	6,5
plotter	1620	64	90	295	165	6,5

Standard Core is 76 mm / 3 inches.

Other sizes or special dimensions are available on request, contact the licensed agent or a Coldenhove sales representative for more information.

SHELF LIFE

This product is covered with a 1,5 year guarantee after receiving the product, under above mentioned storage and handling conditions. Preserve or note down the lot numbers on the roll. In case of quality issues refer to those numbers.

STORAGE AND HANDLING:

- Store material in original packaging only.
- Avoid exposure to direct sunlight and extreme weather conditions.
- Place the roll to in the printing room at least 24 hours prior to printing. Handle the rolls with care while transporting within your premises. Damaged rolls may not be usable.
- For heavier paper rolls, mainly jumbo, we suggest not to leave them hanging on the printer over a prolonged period, as this may in some cases bend the core bar.

SUSTAINABILITY

Thanks to our in-house water recovery management we are able to re-use 95% of the water we use for paper production.

We invest in saving and re-using energy. Residual heat is used for heating offices and the swimming pool in Eerbeek.

All our papers contain high quality fibers and can be recycled up to 7 times.
